## LOS BOHEMIOS

DENOMINACIÓN DE ORIGEN NAVARRA

### HISTORY OF BRAND:

Jardín de Lúculo Los Bohemios is representative of the unconventional lifestyle of bohemianism followed by Juan Glaría and Virginia Arranz, the creators of this exceptional wine.

This lifestyle, typical of adventurers and dreamers, gives name to a fresh, fruity range of wines coming from the best vineyards of Navarra.

### VINEYARD:

The wine called Jardín de Lúculo Los Bohemios was prepared from old Grenache vines growing in the lower mountains of Navarra, where the oldest strains of this variety are raised.

### FERMENTATION & AGEING:

After an optimal harvest in October from our old garnacha bush vines, the grapes were taken to the winery for destemming.

Then, the grapes are left macerating for a few hours in contact with the skins to be finally bled off and clarified to proceed to the fermenting process separately.

After some months of rest in concrete tanks, the wine is cold stabilized and filtered before being bottled.

### WINEMAKER'S NOTES:

Jardín de Lúculo Los Bohemios Rosé is an exquisite raspberry coloured rosé wine with aromas of fresh and exotic red fruits. On the palate it is fine and delicate, with a touch of cherries enhanced by the complex aniseed flavour.

This is truly a lovely expression of high-quality Grenache.

### SERVICE SUGGESTIONS:

Try it with seafood paella or roasted peppers like "Piquillos" from Navarra.

Serve at 8-10°C.
